## Optional Equipment Revision History

Option Revision												Revision Description	TB #	ECN #	Date
LTAGA - PLCBN	Tooth setter	Wash Tank	SW- 07	Wire less	SW- 08	TUV Trailer	IS203	AS80	EG 300	Edger	SW-10				
944	219	723	640 641	120	642 643	623 624	943	1033	907	905	644 645	Book & PDF Number			
A						A						Introducing into production			
B												New Electric box		1540	29-10-2002
C												The angle template for winter blades is no longer used. New grinding wheel for 13.29 profile blades available in sale.	030030pl	1766	02-10-2003
D												New Sharpener Control Box and Electrical Symbol Diagram		1798	20-11-2003
E.00												LTAGA-PLCBN sharpeners (Part No. 088209) have been revised to improve their performance.	040011pl	1901	01-06-2004
	A.00											Introducing into production			
	B.00											Changed blade clamp, blade height adjustment bolts, and arm bracket	040022pl	2326	16-08-04
	C.00											Toothsetter is now equipped with two removable spacers to ensure best operation with all blade profiles	040030pl	2442	04-10-04
		A1.00										Introducing into production			December 2005
			A.00									Introducing into production	060017pl	3221	August 2006
F.00	D.00											Sharpener & Toothsetter Adaptation to 2" blades	060020pl	3327	18-09-2006
										A2.01		Changed the setwork dial Arm and Handle	060035pl	3370	13/12/2006
			B.00									Changed the controller program			
				A1.00								Introducing into production			
					A.00							Introducing into production - 096011.			
A.00												New version of LTAGA-PLCBN (Part No. 097032)			
					B.00							New version of SW08 Setworks (No. 100570)	080020pl	4137	01/08/2008
						B						New fence assembly according to new EU standard\		4160	01/08/2008
										A2.02		Deep Sawdust Hopper, Index Plate Decal	080037pl	4281 4299	29/09/2008 05/01/2009
B.00												Oil pump fittings		4508	01/04/2009
							A1.00	A.00				New sharpener introduction into production.			
									A1.00			New edger automatic board setting.			
										A1.00		Introducing into production			

				A2.0 0							Changed the controller software in AC wi-fi panel.	090021pl		
									A1.01		CE Electrical Diagram		4968	
									A1.02		Lasers change	100013pl	5008	
									A1.03		The new TBS01 Networks Controller (Part No. 503467)	100022pl	5160	03/08/2010
								B.00			AS80 Metrification		5018	03/09/2010
									A2.00		EG300-EMR Operation Improvement, New Control Box	100035pl	5350 5393	03/01/2011
									A2.01		EG300-EMR Removed one of three bearings of the blades drive shaft.	110017pl	5661	20/05/2011
									A2.02		Added Ammeter EQB72 to the electric box	110021pl	5396	13/07/2011
									A2.03		special washers added to the clamping roller to prevent this roller from being blocked by the slabs		5742	22/08/2011
									B1.00		New version of the machine.	11035pl	5858	03/01/2012
							A1.01	B.01			Added blade support kit for 3" blades.		#5368	09/11/2011
